#### **Deck the Halls with Ease: Holiday Tips for Your Home**

- **Use Command Hooks for Decorations:** They're renter-friendly and won't damage walls or doors. Perfect for hanging wreaths, garlands, or stockings.
- **Battery-Powered Candles:** Get the cozy glow of candlelight without the fire hazard.
- **Fragrance Hacks:** Simmer a pot of water with cinnamon sticks, orange peels, and cloves for an instant holiday scent.
- **Be Mindful with Outlets:** Avoid overloading power strips or outlets with too many lights or decorations. Always unplug decor when leaving home or before bed to prevent overheating or fire risks.

### **MAINTENANCE TIPS**

**As temperatures begin to drop, here are a few helpful reminders to keep your home comfortable and safe this winter season:**

- **First Time Turning on the Heat:** You may notice a faint burning smell when you first switch on your heater – don't be alarmed. This is simply dust burning off the coils after being unused for awhile.
- **Drip Faucets During Freezes:** When temperatures fall below freezing, let your faucets drip slightly and open cabinet doors under sinks to help prevent frozen pipes.
- **Keep Your Thermostat Set:** Maintain your thermostat between 70-72F for optimal comfort and to help prevent frozen lines.
- **Check & Change Filters:** Air Filters should be changed every 30 days to keep your heating system running efficiently. Fresh filters can also help improve air quality indoors.
- **Avoid Space Heater Overload:** If you use a space heater, plug it directly into the wall (not a power strip) and keep it away from curtains, bedding, and furniture. Always turn it off before leaving the room or going to bed.
